

COSHH RISK ASSESSMENT

Glass & Stainless Steel Cleaner (750ml)

Product Code: BF140-75

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 750ml polythene containers in a cardboard carton. Cardboard contains 6 x 750ml product.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Bottles must be stored upright in a cool, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep bottles in secure storage areas. Restrict access to storage areas to authorised personnel. Store in a closed bottle. Store away from strong acids and strong alkalis.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that bottles are not split or blown. Store in a well-ventilated place. Keep cool.
USAGE			
Product is dispensed into a bucket or bowl of water, either directly or with the use of a pump dispenser. Product can be dispensed into a rotary cleaner solution tank. Product can be applied with a mop or cleaning cloth. Product can also be dispensed in a spray from a trigger-spray bottle.	Risk of eye irritation. Risk of skin irritation. May cause irritation to the digestive tract. Risk of spillage onto floor and into drainage system. Wash the spillage site with large amounts of water.	Handle the containers with care. Spray product away from the body and face at all times. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective Gloves When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities..
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. The product is not considered harmful to aquatic organisms or considered to have long term negative effects on the environment. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the product is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (i.e. outside drain).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
