

COSHH RISK ASSESSMENT

Jangro Professional Aluminium Cleaner (5 Litre)

Product Code: BG240-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped. Risk of strain injuries if not handled correctly.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container. Store locked up.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep in flammable liquid storage. Restrict access to storage areas to authorised personnel. Keep the store well ventilated. Clear up spills immediately.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product is diluted according to manufacturer's instructions.	Risk of eye contact/damage. Risk of severe skin burns. Risk of ingestion. Risk of fire and corrosive vapours. Risk of spillage onto floor and into drainage system.	Handle the bottles with care. Wear Personal Protective Equipment. Ensure that the bottle is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are cleaned up immediately using sand or earth and place into containers.	Provide employees with PPE as follows: • Protective Gloves • Safety Goggles When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Dispose of in accordance with Local Authority requirements.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives always wear Personal Protective Equipment during disposal. Ensure that all operatives are aware of the First Aid equipment.
