| DELIVERY                                                                                                     |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                   |
| Packaged in 5 litres polythene bottle with integral handle.                                                  | Risk of spillage if the container is dropped. Risk of injury to user if dropped. Risk of strain injuries if not handled correctly.                             | Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.                                                                                                                                                                                               | Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.                                                                                                                                        |
| STORAGE                                                                                                      |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                   |
| Keep in cool, dry, ventilated storage. Keep containers closed. Keep in original container.                   | Minimal risk of spillage if caps are firmly in place. Risk of emission of noxious fumes if involved in a fire – product itself is not classified as flammable. | Restrict access to storage areas to authorised personnel. Keep the store well ventilated. Keep away from oxidising agents and strong acids.                                                                                                                                                                                                         | Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.                                                                                                                                       |
| USAGE                                                                                                        |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                   |
| Product is added to the detergent tank of extraction carpet cleaning machines. Product can be used manually. | Risk of severe skin and eye contact and damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.                   | Handle the bottles with care. Wear Personal Protective Equipment. Ensure that the bottle is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are cleaned up immediately using sand or earth and place into containers. Flush with plenty of water to clean spillage area. | Provide employees with PPE as follows: <ul style="list-style-type: none"><li>• Chemical Protective gloves</li><li>• Chemical Safety goggles</li></ul> Provide adequate local and general exhaust ventilation. Ensure that operatives are aware of location of First Aid facilities and personnel. |
| DISPOSAL                                                                                                     |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                   |
| Dispose of in accordance with Local Authority requirements.                                                  | Small risk of skin or eye contact.<br>Small risk of inhalation and ingestion. Risk of contamination with other substances.                                     | Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).                                                                                     | Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.                                                                                                                                      |
