

COSHH RISK ASSESSMENT

Jangro Air Freshener – Cranberry Blast (750ml)

Product Code: BG030–CR

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 6 x 750 ml metal, aerosol, pressurised canister sprays. Delivered in single units if required.	Risk of injury to user if dropped.	Take care not to drop the canisters. Ensure that the covering cap is secure at all times.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Canisters must be stored in a cool, dry storage area away from sources of heat, including direct sunlight.	Extremely flammable. If involved in fire, dangerous gases may be emitted. Covering Caps are not child proof.	Pressurised canister – therefore there is a risk of explosion if involved in a fire or if punctured. Store away from all sources of heat including direct sunlight.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.
USAGE			
High pressure, super power aerosol. Product is dispensed in a dry fog-like spray to clear unwanted odour fast. Product is sprayed into the air via a push-top spray. For use in large public areas.	Risk of eye contact. Risk of ingestion. Risk of skin contact. Risk of inhalation.	Handle the canisters with care. Spray product away from the body and face at all times. Ensure that the container is returned to store when not in use. Ensure that the work area is well ventilated at all times. Never spray near sources of heat or incandescent material. Always read the manufacturer's instructions.	Provide employees with PPE as follows: Not required for normal conditions of use. Ensure that operatives are aware of location of First Aid facilities. Ensure that operatives are aware of all fire procedures.
DISPOSAL			
Empty canisters can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Ensure that the canisters are exhausted prior to disposal. To dispose of residual stock, empty product via spraying outside in an open space. Do not puncture or incinerate even when empty.	No specific protective equipment required. Ensure that all operatives are aware of the First Aid equipment.
