

COSHH RISK ASSESSMENT

Jangro Cleaner Disinfectant Concentrated (5 Litre)

Product Code: BA048-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Keep only in the original container in a cool, well-ventilated place. Store away from the following materials: Oxidising materials. Keep out of reach of children.	Reactions with concentrated acid will produce hydrogen chloride. Minimal risk of spillage if containers are firmly closed. Caps are not child proof.	Ensure that the product is stored away from oxidising materials. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel..	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
For general cleaning and disinfecting and infection control. Follow dilution rates on label.	Risk of serious eye damage. Risk of skin irritation. Risk of ingestion. Risk of inhalation. Risk of spillage on to floor or drainage system.	Handle the containers with care. Ensure that the bottle is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows: • Protective gloves • Chemical splash goggles or face shield • Protective clothing Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Discharge used solutions into drain. Small amounts (less than 5 litres) of unwanted product may be flushed with water to sewer. Consign empty containers to normal waste.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
