

COSHH RISK ASSESSMENT

Jangro Laundry Enzyme Boost (5 Litre)

Product Code: BP082-5

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Store in original sealed container and protect from extremes of temperature.	Minimal risk of spillage if triggers are firmly in place. Caps are not child proof.	Ensure that the product is stored away from oxidising materials. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
For machine use add product to the main wash with detergent at a rate of 4ml per kilo of dry weight fabric. Wash at 30-65 degrees Celsius. To pre-soak add to warm water and soak the fabric for 1 hour then wash the fabric normally, ONLY use on water washable fabrics. Do NOT use in conjunction with any other laundry destaining products.	Causes serious eye damage. May produce allergic reaction. May cause skin irritation and red skin. Inhalation may cause shortness of breath or cough. Ingestion may cause burns or irritation of the linings of the mouth, throat and gastrointestinal tract.	Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective overall • Safety glasses • Protective gloves Ensure that operatives are aware of location of First Aid facilities.
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Wash hands thoroughly after handling. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation continues: get medical advice. If skin irritation occurs: get medical advice. Take off contaminated clothing.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
