

COSHH RISK ASSESSMENT

Jangro Professional Drain Solution (5 Litre)

Product Code: BC072-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton. Delivered in single containers if required. Polythene containers incorporate handle for carriage.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel. Store products away from strong acids, alkalis of disinfectants.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are sound and are not rusted at the seams.
USAGE			
Shake well before opening. Pour two litres of warm water into the drain immediately prior to using. Pour 50ml into a cup of warm (not hot) water and pour into sink. Leave for at least 30 minutes but preferably overnight. Flush with clean hot water.	Risk of eye contact. Small risk of ingestion. Risk of skin contact. Risk of spillage on floor.	Handle the containers with care. When dispensing into polish tray, wipe up any spillages or splashes immediately. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Ensure that the work area is well ventilated during use.	Provide employees with PPE as follows: • Protective Gloves Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Empty containers can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Do not store any other material in the empty container. Ensure that the container is exhausted before disposal.	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
