

COSHH RISK ASSESSMENT

Jangro Professional Tray Wash Detergent (20 Litre)

Product Code: BB087-20

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 20 litres polythene containers. Polythene containers incorporate handle for carriage.	Risk of spillage if the container is dropped. Risk of injury to user if dropped. Risk of Musculoskeletal disorder if not lifted correctly.	Trained employees should handle only single container at any given time. Take care not to drop containers. Ensure that the cap is secured at all times. Undertake Manual Handling Training.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Ensure that product is stored away from substances that contain oxidising agents and strong acids. Keep containers in secure storage area. Store all containers at floor level to make handling easier. Store heavier items on lower shelves. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product is dispensed directly into automatic dishwashing machine via an automatic dosing system.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation. Take care when connecting container to dispensing system. Risk of spillage onto floor and into drainage system.	Handle the bags with care. Wear Personal Protective Equipment. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective Gloves • Safety Goggles Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Small amounts of unwanted product may be flushed with water to sewer. Large volumes must be sent for disposal by approved waste contractor. Residual stocks must be disposed of in line with Local Authority Guidelines.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
