

COSHH RISK ASSESSMENT

Jangro Sink & Drain Maintainer (5 Litre)

Product Code: BC068-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 2 X 5 litres polythene bottle with integral handle. Product is ready to use.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original sealed container. Keep containers tightly closed.	Contact with acids liberates toxic gas. Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel. Keep the store well ventilated. Ensure that the product is stored away from any reactive materials.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown. Never decant concentrate into an unlabelled container.
USAGE			
Product is applied directly into drain. Read label for instructions.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation. Risk of severe skin burns. Toxic to aquatic life. Take care when opening bottle away from body and face. Risk of spillage onto floor and into drainage system.	Handle the bottles with care. Wear Personal Protective Equipment. Ensure that the bottle is returned to the store when not in use. Never dilute the product. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately using sand, earth or granules and neutralise with soda ash or hydrated lime.	Provide employees with PPE as follows: • Chemical resistant coveralls and safety boots • Household rubber gloves • Chemical splash goggles or face shield Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Dispose of according to local environment control regulations via a licensed contractor. Wash out empty container thoroughly with water before disposal, otherwise treat as 'special waste'	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
