

COSHH RISK ASSESSMENT

Jangro ntrl Probiotic Multisurface Cleaner Sachet

Product Code: BF121

Warning

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged 20 sachets per pack. Available in cardboard cartons of 10 x 20.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single packages at any given time. Take care not to drop the product.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come in to contact with them.
STORAGE			
Store at moderate temperatures in dry, well-ventilated area. Keep in original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep in secure storage areas. Restrict access to storage areas to authorised personnel. If stored at floor level, ensure they are placed on a pallet.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that the packaging is not split or damaged.
USAGE			
Sachet is added to trigger bottle or mop bucket of water, as instructions on label. Do not handle sachets with wet hands.	Risk of eye contact. Risk of serious eye irritation.	Handle the container with care. Wear Personal Protective Equipment. Clean up any spillages immediately. Ensure that the tub is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: Household gloves if prolonged contact with product is likely. When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Refuse and used packaging should be dealt with according to local regulations.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the product is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear personal protective equipment at all times.
