

BF110-1 Surface Sanitiser Unfragranced

ntrl

For use
on floors,
tables &
sinks

Place safety Sign & equip the appropriate PPE as indicated in SDS.

Invert the dosing bottle to fill the measuring chamber. Once filled, check that the liquid is at the desired level.

If there is too much liquid dispensed, tilt bottle to the line below the desired amount e.g. 5ml.

This will result in the correct amount being left once the bottle is stood once again.

Dilute with cold water 2x6ml (1:50) to 600ml of water and spray surfaces and leave for 30 seconds.

Remove safety signs when dry.

For
bucket
use

Place safety Sign & equip the appropriate PPE as indicated in SDS.

Invert & revert to trap the correct amount.

If there is too much liquid dispensed, tilt bottle to the line below the desired amount e.g. 5ml.

This will result in the correct amount being left once the bottle is stood once again.

Dilute 4x25ml to 5 litres of cold water (1:50).

Wipe/mop surface. Allow 30 seconds contact time.

Remove safety signs when dry.
